## PROFESSIONAL EXPERIENCE

## PROJECTS

**Maha Akshayam Sivam Trust Website** - Developed a website for Maha Akshayam Sivam Trust to showcase their initiatives and events, enhancing their online presence.

**No-Codify** - Contributed to the development of a decentralized platform for website development, revolutionizing the way websites are built and managed.

**Ticket3** - Collaborated on the creation of a decentralized ticket booking platform, providing users with a secure and efficient way to book tickets for various events.

**JoinHands** - Played a key role in the development of JoinHands, a platform connecting restaurants with NGOs to distribute surplus food to people in need, addressing hunger and food wastage.

**Fake News Detection AI** - Utilized datasets and machine learning algorithms to develop an AI-powered system for detecting fake news, contributing to the fight against misinformation.

**CheckBMI App** - Led the development of the CheckBMI mobile application using React Native, incorporating consultation features to provide users with personalized health insights and advice.
